INNOVATIVE
SOLUTIONS

INNOVATIVE SOLUTIONS CORPORATE PROFILE

Purpose

The purpose of establishing an independent engineering services and an independent third party in our state is unique and sincere in a way that enable us to think beyond the set norms of state and to root out the bias of whatsoever nature but not limited to

- Determine if, or verify that, the requirements of a specification, regulation, or contract are met
- Root out any sort of bias/favoritism within government departments when it comes to compliance
- Root out corruption in all business transactions by providing honest results and independent reporting
- Decide if a new product development program is on track: Demonstrate proof of concept
- Provide standard data for other scientific, engineering, and quality assurance functions
- Validate suitability for end-use
- Provide a basis for technical communication
- Provide a technical means of comparison of several options
- Provide evidence in legal proceedings: forensics, product liability, patents, product claims, etc.
- Help solve problems with current products or services

Affiliation

- Innovative solutions is an independent third party and is not affiliated to any government, private organizations. The only affiliation is ISO 9001/2015 certification to ensure organization fulfill the requirements of quality management system. The other affiliations, which we hold solely for certification purpose, are ASME, API, NBIRC, ISO/IEC-17025, PMI, and TWI

Trading division

- Innovative solutions is operating a trading division dealing mainly with world's costliest spice called "Saffron" with a brand name "KONG PHULLAI" . The brand name has been chosen considering to keep the Kashmiri scent with it.

- Improve skills of work force through professional training
- Constant up gradation to Technologies, Manufacturing methods and Engineering practices to attain excellence.
- Educate the workmen in Safe Handling of the tools and materials
- Ensure optimum utilization of valuable resources

ABOUT US

Thinking and Doing

We have a passion for unraveling complexity. We will define a solution that works for our clients and take the responsibility for delivering it. This is what we mean by Thinking and Doing.

We combine this front-end thinking with a proven portfolio of products and services that ensure we can also deliver innovative and smart project solutions.

Environmental commitment:

Environmental commitment is a way of life at Innovative Solution. It extends across all of our operations and is at the forefront of the services we provide as a world class, knowledge-based asset integrity management organization dedicated to providing seamless performance to corporations in the Chemical, Oil & Gas, Power and other major industries.

As trusted advisors of international corporations, we are serious about environmental compliance leading to the optimization of assets and non-interrupted production. We use our resources efficiently and minimize waste. We have the skills, knowledge and experience necessary to help our clients reduce their environmental emissions and increase their energy efficiency

How we add value:

- Complete life-cycle services: design, execution, service & maintenance, calibration and validation.
- Innovative special access solutions including rope access and netting to provide cost effective inspection/installation methods.
- The ability to work on electrical low voltage distribution networks up to 30kV high voltage installations.
- We cover the complete instrument and control technical spectrum: the total loop from PLC/SCADA up to and including the field components.
- Cost-saving building-related systems for industrial and utility construction.
- Customized maintenance and inspection solutions to meet your specific needs.

We deliver tangible benefits for all our clients:

- Improving safety
- Extending asset lifetime
- Optimizing asset performance
- Reducing emissions
- Increasing efficiency
- Reducing risk
- Improving continuity
- Maximizing Return on Investment (ROI)
- Minimizing downtime
